

Job Title: **Manager, Environment and Regulatory Affairs**

Date Posted: November 9, 2021

Location: Toronto, ON

Reference No.: 2021-015

Position Type: Office and Field

Schedule: Monday to Friday

About the Opportunity:

Based at the Corporate Office in Toronto, ON with frequent travel to the project site, we currently have an exciting opportunity for a **Manager, Environment and Regulatory Affairs** to join our Environment team reporting to the **Vice-President, Environment and Regulatory Affairs**.

Treasury Metals Inc. is an exploration and mining development company currently in the process of moving the Goliath Gold Complex through the development process. The Goliath Gold Complex is located proximal to the beautiful communities of Dryden and Sioux Lookout, both well appointed with key amenities and services.

The **Manager, Environment and Regulatory Affairs** will be responsible to provide leadership in developing and coordinating environment personnel and assist in developing, implementing, and administering environment policies, practices and procedures at the Goliath/Goldlund/Miller Projects.

RESPONSIBILITIES:

Your responsibilities will include:

Regulatory Affairs

- Manage the environmental approvals and permitting programs for the company
- Manage financial resources required to support technical studies, field programs and consulting teams engaged in environmental approvals
- Liaise with government regulators and approval boards to maintain communications and ensure expedient permitting outcomes

Environment

- Manage the Dryden site environmental department including coaching and developing staff
- Ensure environmental management programs are in-compliance with all corporate policies and procedures
- Develop, implement and maintain environmental data management and monitoring systems required to comply with all regulatory, permits, monitoring and reporting requirements

ESG Program

- Develop and steward a robust suite of environmental related management systems in line with international standards and guidelines
- Contribute to the company's annual ESG Reporting program

Leadership

- Establish clear performance expectations for members of the department and support employees in the achievement of their goals
- Communicate and demonstrate Treasury Metal's mission and values
- Motivate and mentor employees

QUALIFICATIONS:

A minimum of a Bachelor's degree in Sciences/Engineering or an equivalent combination of Post Secondary education and training in an applicable discipline.

- 10 - 15 years of environmental and mining related experience.
- Excellent knowledge of Government Acts and Regulations
- A thorough understanding of the environmental impacts of mining and milling processes
- Time working in a mine site environment is considered an asset
- Ability to communicate effectively both orally and written
- Problem resolution involving a high degree of independent judgment
- A demonstrated ability to synthesize and interpret complex data
- Excellent organizational skills and detail-oriented
- Must be able to handle a high level of confidentiality
