the EA	Amended Environmental Impact Statement / Final Environmental Assessment Report (August 2019)

EXECUTIVE SUMMARY – ENGLISH

Treasury Metals Inc. (Treasury) is proposing the construction, operation, decommissioning, and abandonment of an open-pit and underground gold mine and associated infrastructure. The Goliath Gold Project (Project) located 20 kilometres east of the City of Dryden, Ontario, will have an ore production capacity of 5,424 tonnes per day and an ore input capacity of 3,240 tonnes per day with an anticipated mine and mill life of 12 years. Over the 12 years of operations, the average ore production and ore input capacity of the mine and mill would be 2,700 tonnes per day.

Treasury received a Federal government Decision Statement for the Project under the *Canadian Environmental Assessment Act, 2012* (CEAA, 2012) on 19 August 2019 (Decision Statement), with the Minister of Environment and Climate Change Canada concluding that with the implementation of mitigation measures, the Project is not likely to cause significant adverse environmental effects referred to in subsection 5(1) CEAA, 2012.

As of 31 December 2022, Treasury had not announced a formal decision to advance the Goliath Gold Project. As such, the Project remains in the evaluation (design and planning) phase.

As per Condition 2.9, Treasury is required to prepare an annual report each reporting year (defined in the Decision Statement as July 1 to June 30) commencing the reporting year the decision statement was issued. As per Condition 2.10, Treasury has until October the following reporting year to issue the report.

As per a meeting held on 14 December 2022 with Impact Assessment Agency of Canada (IAAC, formerly the Canadian Environmental Assessment Agency), Treasury proposed to prepare and submit a cumulative Annual Report to IAAC to meet Condition 2.9 of the Decision Statement, which includes all activities from post-Decision Statement to 2022 ending for the Project. Post-submission, Treasury will prepare and submit Annual Reports as per the cadence set in Condition 2.9 and Condition 2.10 of the Decision Statement. The proposed cumulative Annual Report was confirmed on 14 December 2022. The purpose of this report is to satisfy the proposed approach confirmed with IAAC and satisfy Conditions 2.9 and 2.10 of the Decision Statement.

SOMMAIRE EXÉCUTIF – FRANÇAIS

Treasury Metals Inc. (Treasury) propose la construction, l'exploitation, la désaffectation et l'abandon d'une mine d'or à ciel ouvert et souterraine et de l'infrastructure connexe. Le projet aurifère Goliath (projet), situé à 20 kilomètres à l'est de la ville de Dryden, en Ontario, aura une capacité de production de minerai de 5 424 tonnes par jour et une capacité d'entrée de minerai de 3 240 tonnes par jour, avec une durée de vie prévue de la mine et de l'usine de traitement de 12 ans. Au cours des 12 années d'exploitation, la capacité moyenne de production de minerai et d'entrée de minerai de la mine et de l'usine serait de 2700 tonnes par jour.

Treasury a reçu une déclaration de décision du gouvernement fédéral pour le projet en vertu de la Loi canadienne sur l'évaluation environnementale, 2012 (LCEE, 2012) le 19 août 2019 (déclaration de décision), le ministre de l'Environnement et du Changement climatique du Canada concluant qu'avec la mise en œuvre de mesures d'atténuation, le projet n'est pas susceptible d'entraîner des effets environnementaux négatifs importants visés au paragraphe 5(1) de la LCEE, 2012.

Au 31 décembre 2022, Treasury n'avait pas annoncé sa décision officielle de faire avancer le projet aurifère Goliath. Le projet reste donc en phase d'évaluation (conception et planification).

Conformément à la condition 2.9, Treasury est tenue de préparer un rapport annuel pour chaque année de référence (définie dans la déclaration de décision comme allant du 1er juillet au 30 juin) à compter de l'année de référence au cours de laquelle la déclaration de décision a été publiée. Conformément à la condition 2.10, la Trésorerie a jusqu'au mois d'octobre de l'année suivante pour publier le rapport.

Lors d'une réunion tenue le 14 décembre 2022 avec l'Agence canadienne d'évaluation d'impact (ACEI, anciennement l'Agence canadienne d'évaluation environnementale), Treasury a proposé de préparer et de soumettre un rapport annuel cumulatif à l'ACEI pour satisfaire à la condition 2.9 de la déclaration de décision, qui comprend toutes les activités du projet depuis la déclaration de décision jusqu'à la fin de l'année 2022. Après la soumission, Treasury préparera et soumettra les rapports annuels conformément à la cadence établie dans les conditions 2.9 et 2.10 de la déclaration de décision. Le rapport annuel cumulé proposé a été confirmé le 14 décembre 2022. L'objectif de ce rapport est de satisfaire à l'approche proposée confirmée avec l'IAAC et de satisfaire aux conditions 2.9 et 2.10 de la déclaration de décision.

1.0 INTRODUCTION

Treasury Metals Inc. (Treasury) is proposing the construction, operation, decommissioning, and abandonment of an open-pit and underground gold mine and associated infrastructure. The Goliath Gold Project (Project) located 20 kilometres (km) east of the City of Dryden, Ontario, will have an ore production capacity of 5,424 tonnes per day and an ore input capacity of 3,240 tonnes per day with an anticipated mine and mill life of 12 years. Over the 12 years of operations, the average ore production and ore input capacity of the mine and mill would be 2,700 tonnes per day. The regional location of the Project is shown on Figure 1.

Treasury received a Federal government Decision Statement for the Project under the *Canadian Environmental Assessment Act, 2012* (CEAA, 2012) on 19 August 2019 (Decision Statement), with the Minister of Environment and Climate Change Canada concluding that with the implementation of mitigation measures, the Project is not likely to cause significant adverse environmental effects referred to in subsection 5(1) CEAA, 2012. The Minister's Decision Statement also established conditions in relation to the environmental effects, which must be complied with in order to advance the Project. Treasury is aware of the legal requirements and commitments made during the Environmental Assessment (EA) process and will ensure their implementation in a careful and precautionary manner. The EA Project Study Area is shown on Figure 2.

As of 31 December 2022, Treasury had not announced a formal decision to advance the Goliath Gold Project. As such, the Project remains in the evaluation (design and planning) phase.

As per Condition 2.9, Treasury is required to prepare an annual report each reporting year (defined in the Decision Statement as July 1 to June 30) commencing the reporting year the decision statement was issued. As per Condition 2.10, Treasury has until October of the reporting year to issue the report.

As per a meeting held on 14 December 2022 with Impact Assessment Agency of Canada (IAAC, formerly the Canadian Environmental Assessment Agency), Treasury proposed to prepare and submit a cumulative Annual Report to IAAC to meet Condition 2.9 of the Decision Statement, which includes all activities from post-Decision Statement to 2022 ending for the Project. Post-submission, Treasury will prepare and submit Annual Reports as per the cadence set in Condition 2.9 and Condition 2.10 of the Decision Statement. The proposed cumulative Annual Report was confirmed on 14 December 2022. The purpose of this report is to satisfy the proposed approach confirmed with IAAC and satisfy Conditions 2.9 and 2.10 of the Decision Statement.

Figure 1: Project Regional Location

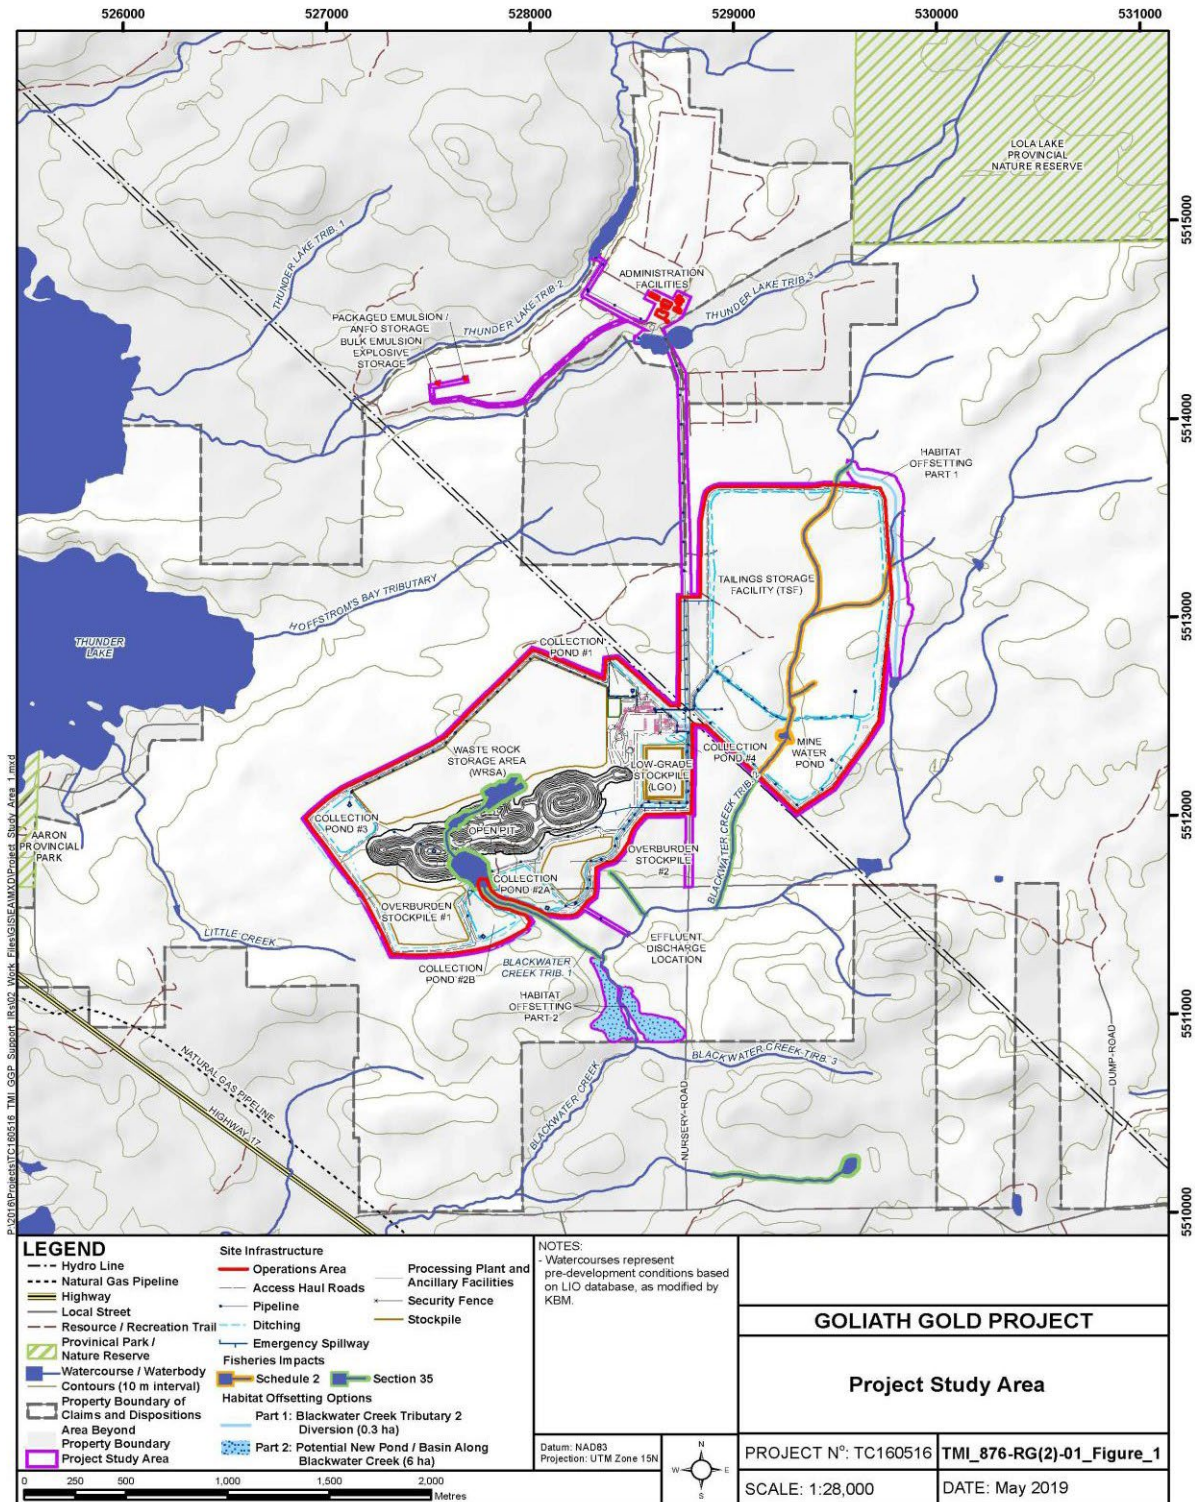

Figure 2: Environmental Assessment Project Study Area

2.0 REPORT SCOPE AND REQUIREMENTS

The scope of this Annual Report is to outline how Treasury has complied with the conditions of the Decision Statement. This report covers the Project activities undertaken by Treasury during the cumulative reporting period, August 2019 to 31 December 2022 inclusive (herein referred to as the “reporting period”).

Condition 2.9 of the Decision Statement outlines the Annual Report information requirements for the Project. *Table 2-1* outlines the section references within this document that demonstrate concordance with these requirements.

Table 2-1: Annual Reporting Information Requirements and Treasury Concordance

Condition	Treasury Concordance
2.9: The Proponent shall, commencing in the reporting year during which the Minister issues the Decision Statement on the Designated Project, prepare an annual report that sets out:	
2.9.1: the activities undertaken by the Proponent in the reporting year to comply with each of the conditions set out in this Decision Statement;	Appendix A provides a list of all Decision Statement conditions and describes the activities undertaken by Treasury in the reporting period to comply with each condition.
2.9.2: how the Proponent complied with condition 2.1;	In addition to Appendix A, further information is provided in Section 4 (Approach to Compliance Management).
2.9.3: for conditions set out in this Decision Statement for which consultation is a requirement, how the Proponent considered any views and information that the Proponent received during or as a result of the consultation;	In addition to Appendix A, further information is provided in Section 5 (Consultation and Engagement).
2.9.4: the information referred to in conditions 2.4 and 2.5 for each follow-up program;	In addition to Appendix A, further information is provided in Section 6 (Follow-Up and Adaptive Management).
2.9.5: the results of the follow-up program requirements identified in conditions 3.13, 3.14, 3.15, 4.5, 4.6, 4.7, 5.2, 5.3, 6.8, 6.9, 7.3, 7.4, and 7.5;	In addition to Appendix A, further information is provided in Section 6 (Follow-Up and Adaptive Management).
2.9.6: any modified or additional mitigation measures implemented or proposed to be implemented by the Proponent, as determined under condition 2.7; and	In addition to Appendix A, further information is provided in Section 6 (Follow-Up and Adaptive Management).
2.9.7: any change(s) to the Designated Project in the reporting year for which the Proponent determined that condition 2.15 did not apply.	In addition to Appendix A, further information is provided in Section 3 (Project Update).

3.0 PROJECT UPDATE

This section provides a general update on the design and planning phase activities undertaken for the Project during the reporting period. The overall implementation schedule has been included to provide context for scope of this report and compliance reporting timeframes.

Treasury continues to advance technical engineering activities from 2019 to 2022 to support a Pre-Feasibility Study (PFS) and anticipated Feasibility Study (FS) and positive construction decision from the Treasury Metals Inc. Board of Directors prior to advancing potential development at the Project. On-going environmental programs complement work completed for baseline studies and will be used to support permitting processes at a federal and provincial level.

As of December 2022, Treasury continues to work towards a PFS public announcement date of the end of March 2023. Post-PFS, Treasury will maintain a focus on value-engineering to support long-lead provincial permitting.

Table 3-1: Project Milestones

Project Phase	Start Date	Completion Date ¹	Duration ¹
Design and Planning - PFS	August 2019	March 2023	3.5 years
Design and Planning - FS	March 2023	H1 2024 ²	1 year
Construction	H2 2024	H1 2026 ²	1.5 years
Operations	H2 2026 ²	H2 2038 ²	12 years
Closure	2039	-	-
Decommissioning ³	2039	2041	2 years
Closure ⁴ and Site Close Out ⁵	2041	2071	30 years
¹ Completion dates and durations are approximate and are subject to change and will be based on monitoring results and direction from regulatory authorities. ² H1 refers to January through June; H2 refers to July through December. ³ Decommissioning: Demolition and major site rehabilitation activities. Pumping and monitoring activities implemented. ⁴ Closure: The open pit is allowed to flood. Pumping and monitoring activities implemented ⁵ Close Out: Commences once the open pit is flooded and passively discharges to Blackwater Creek.			

4.0 APPROACH TO COMPLIANCE MANAGEMENT

This section is to outline how Treasury will approach the monitoring and maintenance of Project compliance with regulatory requirements and commitments during the reporting period, and provides information on how Treasury is maintaining compliance with Condition 2.1:

The Proponent shall ensure that its actions in meeting the conditions set out in this Decision Statement during all phases of the Designated Project are considered in a careful and precautionary manner, promote sustainable development, are informed by the best information and knowledge available at the time the Proponent takes action, including community and Indigenous traditional knowledge, are based on methods and models that are recognized by standard-setting bodies, are undertaken by qualified individuals, and have applied the best available economically and technically feasible technologies.

Treasury continues to design and advance engineering details related to the Project in a manner that aligns with the company's corporate standards and policies. Treasury considers and incorporates the expertise of a team of qualified engineering and environmental consultants to support on-going engineering and ongoing engagement with Indigenous communities.

Treasury is committed to continued compliance with the provisions of the Decision Statement throughout all Project phases. Treasury has begun preliminary development of an environmental management system with the aim of ensuring that EA, permit conditions and other commitments are implemented effectively.

5.0 CONSULTATION AND ENGAGEMENT

Refer to Appendix B for a summary of key consultation and engagement activities undertaken during the reporting period.

6.0 FOLLOW-UP AND ADAPTIVE MANAGEMENT

This section provides a summary of activities undertaken during the reporting period related to the follow-up programs required by Conditions 3 (3.13, 3.14, 3.15), 4 (4.5, 4.6, 4.7) 5(5.2, 5.3), 6 (6.8, 6.9) and 7 (7.3, 7.4, and 7.5).

6.1 Fish and Fish Habitat

This condition is not currently applicable. Follow-up programs are scheduled for development and implementation prior to construction.

6.2 Migratory Birds

This condition is not currently applicable. Follow-up programs are scheduled for development and implementation prior to construction.

6.3 Wetlands

This condition is not currently applicable. Follow-up programs are scheduled for development and implementation prior to construction.

6.4 Land and Resource Use for Traditional Purposes

This condition is not currently applicable. Follow-up programs are scheduled for development and implementation prior to construction.

6.5 Health of Indigenous Peoples

This condition is not currently applicable. Follow-up programs are scheduled for development and implementation prior to construction.

7.0 Closing

Treasury is currently in the process of completing a PFS for the Project and anticipates advancing to a FS and positive construction decision by the Board of Directors. At this stage, the Project continues to be in the evaluation stage with on-going environmental programs to complement baseline studies and support permitting process.

EA-FC3.5	The Proponent shall comply with the <i>Metal and Diamond Mining Effluent Regulations</i> and the pollution prevention provisions of the <i>Fisheries Act</i> .	N	N	Y	Y	Y	Annual Compliance Report	<i>Not currently applicable. No applicable activities were undertaken during the reporting period.</i>
EA-FC3.6	The Proponent shall manage mine effluent before it is deposited into the receiving environment. In doing so, the Proponent shall: -3.6.1 collect contact water and seepage, from operation through abandonment, from the waste rock storage area, overburden stockpiles, low-grade ore stockpile, tailings storage facility, and open pit and treat contact water and seepage prior to its release into the environment. When treating contact water and seepage, the Proponent shall take into account the water quality thresholds established in Table 8 of the environmental assessment report; -3.6.2 construct and maintain all contact water collection ditches with a liner to limit seepage during all phases of the Designated Project. The Proponent shall consult with relevant authorities when deciding on the type of liner to be used in contact water collection ditches; -3.6.3 combine contact water from the low-grade ore stockpile and waste rock storage area with other site contact water when acid rock drainage is not occurring. If acid rock drainage is occurring, the Proponent shall treat the contact water from the low-grade ore stockpile and waste rock storage area prior to combining with other site contact water. The Proponent shall have a qualified individual determine whether acid rock drainage is occurring; and -3.6.4 direct contact water from the waste rock storage area, overburden stockpiles, and tailing storage facility to the open pit during decommissioning.	N	N	Y	Y	Y	Annual Compliance Report	<i>Not currently applicable. No applicable activities were undertaken during the reporting period.</i>

APPENDIX B

Records of Engagement

Tracking No. and Date	Event Type	Event Summary	Participants	Team
20-Dec-22	Email	Correspondence related to Regulatory Reporting. IAAC (Steven Fraser) provided positive sentiment regarding the experience of the Project team members and confirmed that the course of action described by TML will satisfy the regulatory requirements of discussion. Steven suggested that Carl Johansson (copied) would provide TML with formatting examples for consideration in drafting the Annual Reporting.	Steven Fraser (IAAC); Carl Johansson (IAAC); Zahir Jina (TML)	Treasury Metals Inc (TML); Impact Assessment Agency of Canada (IAAC)
19-Dec-22	Email	TML (Zahir Jina) provided written follow up to a Microsoft Teams Meeting which occurred 14 December 2022. TML confirmed the following commitments in writing: 1. TML to provide IAAC with updates on the advancement of the Prefeasibility Study where appropriate. 2. TML to prepare a relevant short-form report and concordance table to satisfy the annual reporting requirement up to 2022-year end, with submission before Q2 2023. (Mutual understanding of relevance/materiality achieved during 14 December 2022 Teams Meeting).	Steven Fraser (IAAC); Carl Johansson (IAAC); Marc Leger (IAAC); Zahir Jina (TML)	Treasury Metals Inc (TML); Impact Assessment Agency of Canada (IAAC)

Tracking No. and Date	Event Type	Event Summary	Participants	Team
14-Dec-22	Virtual Meeting	TML (Zahir Jina), in coordination with IAAC (Steven Fraser) organized a Microsoft Teams Meeting to provide an update on TML's Goliath Gold Project (Goliath, via Power Point) and to discuss an understanding of Conditions within the Goliath Decision Statement. TML proposed providing IAAC with an Annual Report to cumulatively cover activities from the receipt of the Decision Statement to 2022 year ending. IAAC provided overview of levels of engagement and enforcement to ensure Decision Statement Conditions are implemented. TML expressed continued understanding of the Conditions and appreciated the detail provided by IAAC.	Steven Fraser (IAAC); Carl Johansson (IAAC); Marc Leger (IAAC); Owais Khurshid (IAAC); Paul Schafer (IAAC); David Van Olst (IAAC); Meaghan Murphy (IAAC); Zahir Jina (TML); Steven Woolfenden (TML)	Treasury Metals Inc (TML); Impact Assessment Agency of Canada (IAAC)
16-Nov-22	Phone Call	Via a telephone call from TML (Zahir Jina) to IAAC (Steven Fraser) on 16 November 2022, TML requested a Microsoft Teams meeting to discuss the Annual Reporting requirements outlined in Condition 2.9 of the Goliath Gold Project Decision Statement. The requested Microsoft Teams meeting took place on 14 December 2022, and a number of associated emails and telephone calls were subsequently exchanged to confirm a mutual understanding of the task.	Zahir Jina (TML); Steve Fraser (IAAC)	Treasury Metals Inc (TML); Impact Assessment Agency of Canada (IAAC)

Tracking No. and Date	Event Type	Event Summary	Participants	Team
16-Nov-22	Email	TML (Zahir Jina) sent IAAC (Steven Fraser) an email in follow-up to a telephone call that occurred the same day, 16 November 2022. Zahir confirmed that an invitation for a Microsoft Teams Meeting on 14 December 2022 would be circulated. In summarization of the telephone call, Zahir restated that TML had not met Condition 2.9 of the Goliath Gold Project Decision Statement as the current business activities associated with the phase of advanced exploration do not meet the intention of the annual report and thus have not triggered non-compliance. Zahir confirmed that, after the Microsoft Teams Meeting set for 14 December 2022, TML would provide a memo describing the lack of development on site to further solidify an understanding of maintained compliance.	Steven Fraser (IAAC); Carl Johansson (IAAC); Marc Leger (IAAC); Zahir Jina (TML)	Treasury Metals Inc (TML); Impact Assessment Agency of Canada (IAAC)
16-Nov-22	Phone Call	Phone conversation between TML (Zahir Jina) and IAAC (Steven Fraser) to introduce each other and discuss the coordination of a meeting and confirm an understanding of the Goliath Gold Project Decision Statement and compliance objectives. TML to follow up post-phone call with an email to confirm next steps.	Steven Fraser (IAAC); Zahir Jina (TML)	Treasury Metals Inc (TML); Impact Assessment Agency of Canada (IAAC)
27-Sep-22	In-Person	Impromptu meeting while in Kenora for a related event. TML provided a verbal status update to MINES and a discussion on timing for the Pre-Feasibility Study and related next steps. Discussion items included previous experience working with MINES, MEDC support and timelines for	Maura Kolb (TML); Zahir Jina (TML); Trina Rawn (MINES, formerly MENDM)	Treasury Metals Inc (TML); Ministry of Energy, Northern Development & Mines (MENDM)

Tracking No. and Date	Event Type	Event Summary	Participants	Team
		applications and that TML continues to appreciate and support an on-going collaborative and engaging environment with MINES.		
03-Nov-21	Email	Overview of Indigenous Engagement to DFO.	Mackenzie Denyes (TML); Adam St-Clair-Hughes (DFO)	Treasury Metals Inc (TML); Department of Fisheries & Oceans (DFO)
28-Oct-21	Email	MECP's comments on meeting notes from 5 October 2021 meeting with TML, Wood, and MECP, as well as follow-up questions.	Mackenzie Denyes (TML); Cathy Debney (MECP); Steven McAvoy (MECP)	Treasury Metals Inc (TML); Ministry of Environment, Conservation, & Parks (MECP)
18-Oct-21	Email	DFO visit to Goliath Gold Project for fish and fish habitat review and discussion of fish compensation and offset plan	Mackenzie Denyes (TML); Adam St-Clair-Hughes (DFO)	Treasury Metals Inc (TML); Department of Fisheries & Oceans (DFO)
15-Oct-21	Email	Delivery of Agenda, Meeting Minutes, and PowerPoint presentation for ECA-ISW Pre-Consultation. Key topics included surface water and groundwater monitoring (current and planned), and hydrology monitoring. Also discussed was the lack of need to complete an assimilative capacity study, but the added requirement for water treatment engineering design details.	Mackenzie Denyes (TML); Cathy Debney (MECP); Steven McAvoy (MECP)	Treasury Metals Inc (TML); Ministry of Environment, Conservation, & Parks (MECP)

Tracking No. and Date	Event Type	Event Summary	Participants	Team
12-Oct-21	Phone Call	Call from Peter Hinz updating TML on internal status of director letter and review of list of Indigenous communities to be consulted.	Peter Hinz (MENDM); Mackenzie Denyes (TML)	Treasury Metals Inc (TML); Ministry of Energy, Northern Development & Mines (MENDM)
12-Oct-21	Email	Follow up with MENDM RE: request of communities to be consulted as part of the provincial process as well as the review status of the notice of project status. process required to support the regulatory closure plan.	Mackenzie Denyes (TML); Peter Hinz (MENDM); Scott Burgess (MENDM)	Treasury Metals Inc (TML); Ministry of Energy, Northern Development & Mines (MENDM)
05-Oct-21	Virtual Meeting	Pre-consultation meeting RE ECA-ISW	Mackenzie Denyes (TML); Steve Woolfenden (TML); Amy Elliott (Wood); Martin Rawlings (Wood); David Simms (Wood); Mei Ling Tamkei (Wood); Cathy Debney (MECP); Brooke Campbell-Paterson (MECP); Scott Parker (MECP); Leif Nelson (MECP); Eric Grimm (MECP); Hitesh Vaja (MECP); Todd Kondrat (TK); Amy Goodwin (MECP)	Treasury Metals Inc (TML); Wood PLC (Wood); Ministry of Environment, Conservation, & Parks (MECP)
01-Oct-21	In-Person	Meeting with DFO to provide an overview of the fish compensation and offset plan, fish, and fish habitat details, previous and planned consultation on the fish compensation and offset plan, and site visit.	Mackenzie Denyes (TML); Steve Woolfenden (TML); Abby Bartlett (TML); Mark Ruthven (Wood); Adam St-Clair-Hughes (DFO)	Treasury Metals Inc (TML); Wood PLC (Wood); Department of Fisheries & Oceans (DFO)

Tracking No. and Date	Event Type	Event Summary	Participants	Team
21-Sep-21	Email	Field visit, presentation, draft plans for fish compensation and offset	Mackenzie Denyes (TML); Adam St-Clair-Hughes (DFO)	Treasury Metals Inc (TML); Department of Fisheries & Oceans (DFO)
